

# 《RC12 Wireless air mouse manual》

## 一、 Introduction

RC12 is an air mouse which can realize the dual function of the traditional keyboard and mouse when you sliding your fingers on the touchpad gently. You will find it comfortable and convenient when you control it in your hands. It is unnecessary to like other traditional keyboard and mouse, which must rely on the stationary flat desktop to operate. It makes you easy to control your computer, Television and entertainment when you lying down, or standing.

## Three-in-one function

RC12 is a remote control? A computer keyboard? A computer mouse? The answer is that RC12 a three-in-one multi-functional wireless air mouse which has remote control function, computer keyboard function and computer mouse function.

### 1. Remote control function

### 2. Computer keyboard function

### 3. Computer mouse function

## 二、 Characteristics:

1. Standard AAA batteries design, can be used in all countries in the world, also can avoid the drawbacks come from the built-in lithium battery. (Heavy weight, easy to make the wrist fatigue; limited charging times , short life; long charging time, hard to find the charging address if need to be charged )
2. Whole-fish-soup-button design, to reduce the impedance of the general carbon film key from the current, and improves the sensitivity of the remote control
3. Wireless air mouse reserves storage space for the USB receiver, and eliminates the worry about losing the receiver completely.
4. Standard keyboard design, make you can output at any time. No generally omit keyboard and air mouse can match it.
5. The humane design of the artificial mechanics makes the users fell extraordinary, comfortable and convenient.
6. The advanced power-saving technology improves the battery life a lot. It will goes into dormancy in 2 minutes without working. The current of dormancy is only 10uA. you can press any button to make it go on working.
7. Plug and play, no driver required. It can compatible with USB1.1 and USB 2.0 interface.
8. Easy to connect, no cables required. Only if insert batteries, plug the USB receiver into the devices' USB interface, then you can use the keyboard and mouse in the meantime.
9. Support Windows XP/Windows Vista/Windows 7 system; support Android 2.2/2.3/2.4/4.0/5.0.
10. Can be used for Computers, projectors, smart TV in sitting room, HDTC, android tablet PC, android HD media player, Google smart TV player boxes.
